F. — EXPOSURE CONTROL METHODS

Engineering Controls General ventilation

Eye Protection None under normal use conditions.

Skin Protection None under normal use conditions.

Respiratory Protection None under normal use conditions.

Other Product is nonhazardous when used as directed.

KEEP OUT OF REACH OF CHILDREN.

G. — WORK PRACTICES

Handling and Storage

CAUTION: Pressurized container. Protect from sunlight and do not expose to temperatures exceeding (120°F). Do not pierce or burn, even after use. Do not spray on naked flame or any incandescent material. Shake can before use. Storage in large quantities (as in a warehouse) should be in a well-ventilated, cool area.

Normal Clean Up

Wipe up with towel, etc., and place in container for disposal. Wash residue with water.

Waste Disposal Methods Dispose of in accordance with local, state and federal regulations.

H. — EMERGENCY PROCEDURES

Steps to be taken if material is released to the environment or spilled in the work area Not applicable

Fire and Explosion Hazard	Extinguishing Media
Less than 5% hydrocarbon propellant in a water base formula. Container	As for adjacent fire. Dry
may rocket or explode in heat of fire. Hazardous decomposition	chemical, foam, carbon dioxide,
products may be produced. (Sec. C.).	water fog.

Firefighting Procedures

In fires involving large quantities of product, self-contained breathing apparatus should be used. Fight fire from a distance or protected area. Cool and use caution when handling fire exposed containers.

I. — FIRST AID AND MEDICAL EMERGENCY PROCEDURES

Eyes

Wash eyes with tepid, clear water.

Skin

Not applicable

Inhalation

No adverse effects anticipated from normal use.

Ingestion

Consult physician.

Notes to Physician

If spontaneous vomiting has not occurred, and large amounts have been ingested, the physician may, at their discretion, administer an emetic or mechanically empty the stomach.
